A student who qualifies according to the following criteria and continues an education at a Missouri public community college or vocational/technical school can be eligible for financial incentive for up to two years (six semesters) during the four years immediately following their high school graduation as long as funds are approved by the state legislature. Each student should enter into a written agreement with the school during their four-year high school eligibility period prior to graduation and must have:

1. Attended a designated A+ School for three (3) consecutive years prior to high school graduation;
2. Graduated from high school with a GPA of 2.5 or higher;
3. Maintained a 95% or higher rate attendance during four years of high school;
4. Performed fifty (50) hours of unpaid school-sponsored tutoring or mentoring for other students;
5. Maintained a record of good citizenship and avoidance of unlawful use of drugs and alcohol;
6. Parents must complete the FAFSA after January 1 of their student's senior year;
7. Register with Selective Service, as applicable.

The student financial incentive will be available for a period of four years immediately after high school graduation. To maintain eligibility during that time, each participating student must enroll and attend a Missouri public community college or vocational/technical school on a full-time basis and maintain a GPA of 2.5 or higher.

I understand the eligibility requirements of the A+ Schools Program and understand that funding for the incentives is dependant upon funding from the Missouri General Assembly. MRC-1 is not responsible for the terms and conditions of the A+ program, or any change in program content or financial incentives. The financial incentive is conditional upon MCR-1 achieving and maintaining A+ status.
